

SEMICONDUCTOR DEVICES DEMO BOARD

MODEL DB114

This trainer has been designed with a view to visual demonstration of different types of Semiconductor Devices.

SPECIFICATIONS

1. Silicon Diode
2. Germanium Diode
3. Zener Diode
4. Varactor Diode
5. VDR
6. NTC
7. UJT
8. Silicon - NPN, Low Voltage Transistor
9. Germanium PNP - Low Power Transistor
10. Silicon NPN - Medium Power Transistor
11. SCR
12. TRIAC
13. JFET
14. n - channel MOSFET Metal Oxide
15. Light Emitting Diode
16. Photo Diode
17. Light Dependent Resistor
18. Photo Transistor
19. Opto Coupler
20. Standard Accessories:
 1. User Manual with theory

In keeping view of SIGMA policy of continuous development and improvement, the Specifications may be changed without prior notice or obligation.
